1. The following is an examiner's statement of reasons for allowance: prior art of record does not teach or suggests in combination a transmission apparatus comprised of the second modulation circuit as recited in claim 1, lines 9-14. Furthermore, prior art of record does not teach or suggests in combination a method that (a) receives a pilot signal and auxiliary signal including TMCC information and (b) displays the signal point of the pilot signal and of the auxiliary signal, as recited in claim 10, lines 5-11 and 16-20. Prior art of record also does not teach or suggests in combination a transmission unit that assigns the pilot signal and the auxiliary signal on different positions on the I-Q complex plane as recited in claim 15, lines 3-9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The drawings were received on April 8, 2005. Figures 3-6 of the drawings are accepted. However, a new replacement sheet for Figure 1 is required. The new replacement sheet should incorporate the correct spelling of "AXIS" instead of showing the "AUXIS" as crossed-out.
